Subject: Canadian Radium site

All,

I have created a EPAOSC.org website for the Canadian Radium and Uranium site. You are all listed as contacts with access to private information. This should allow all of us to view the data we are gathering at the site on Monday.

If you do not have an account with Viper.ert.org please set one up by going to the website and creating an account.

Let me know if you have questions.

Thanks,
Dan
